Cabin Width: 4 ft 10 in
Cabin Height: 4 ft 9 in
Crew + Passengers: 1+9
Max Takeoff Weight: 17,100 lbs
Balanced Field Length: 3,300 ft
Landing Distance: 2,248 ft
Max Payload: 2,220 lbs
Maximum: 451 kts
Fuel Burn per Hour: 167 gph
Useable Fuel: 870 gal
Service Ceiling: 45,000 ft
Range: 1,926 nm

More About the Cessna Citation CJ4

The Cessna CitationJet/CJ series (Model 525) are American turboprop-powered light corporate jets built by the Cessna Aircraft Company in Wichita, Kansas. The Citation brand of business jets encompasses seven distinct "families" of aircraft. The Model 525 CitationJet was the basis for one of these families, which encompasses the CJ, CJ1, CJ1+, CJ2, CJ2+, CJ3, and CJ4 models. The stretched CJ4 was launched at the October 2006 NBAA conference. Its wing design comes from the moderately swept wing of the Citation Sovereign. Powered by Williams FJ44-4A turboprops, it has a maximum range of 2,165 nmi (4,010 km). Its cabin is 21 inches longer than the CJ3 and can seat up to nine people plus one in the cockpit. It first lifted off on May 5, 2008, from McConnell AFB in Wichita, Kansas and first deliveries started in 2010.
